## NEWS RELEASE

### PROCURRI RECOGNIZED ON CRN'S 2018 EMERGING DATA CENTER VENDORS LIST

**Atlanta, GA, July 23, 2018** – Singapore Exchange-listed Procurri Corporation Limited (“**Procurri**”, and together with its subsidiaries, the “**Group**”), a leading global independent provider of IT lifecycle services and data center equipment, announced today that [CRN®](#), a brand of [The Channel Company](#), has named its wholly-owned subsidiary, Procurri LLC, to its 2018 Emerging Vendors List in the Data Center category. This list recognizes recently founded, up-and-coming technology suppliers who are shaping the future of the IT channel through unique technological innovations. The list is divided into seven categories: Cloud, Data Center, Security, Big Data, Unified Communications, Internet of Things (IoT) and Storage. In addition to celebrating these notable companies, the Emerging Vendors list serves as a valuable resource for solution providers looking to expand their portfolios with cutting-edge technology.

Incorporated in 2013 and listed on the Main Board of the Singapore Exchange Securities Trading Limited in 2016, Procurri has displayed a blazing track record and impressive growth within a short span of five years. The Group now has 14 offices across the Americas, Europe and Asia-Pacific serving over 3,100 clients globally, of which many are renowned Tier-1 original equipment manufacturers, value-added resellers, system integrators, cloud service providers and managed services providers.

Commented Zack Sexton, Procurri’s Head of the Americas, “It is such an honor to be acknowledged as one of only 11 emerging data center vendors by the prestigious CRN. Although the company is relatively young, the management team has an average of 20 years of experience in the IT industry. This award is a credible testament to Procurri’s rising prowess in the data center services and hardware industry.

“Procurri was founded on the vision of supporting global enterprises with their refurbished hardware procurement, legacy or post-warranty maintenance as well as responsible disposal of retired assets. We thrive on a channel-partnership model to offer complementary services as part of their full suite of solutions, while keeping costs competitive to create a win-win situation for us, our partners as well as the end-users. Our ability to deliver customized services catered to an organization’s needs in various geographical locations is another vital plus point that draws many satisfied repeat customers,” said Mr Sexton.

“The technology suppliers on CRN’s 2018 Emerging Vendors list are creating a bright future for the IT channel, aggressively developing products to meet complex IT market demands, while positively

impacting the bottom line of solution providers,” said Bob Skelley, CEO, The Channel Company. “The array of leading-edge products delivered by these organizations will have a lasting impact on the channel for years to come.”

The complete Emerging Vendors list will be featured online at [www.crn.com/emergingvendors](http://www.crn.com/emergingvendors).

### **About Procurri**

Procurri is one of the leading global independent providers of Lifecycle Services and Data Centre Equipment. By offering a converged network that combines the technology, finance and logistics domains, Procurri aims to be a global aggregator of enterprise hardware and services to its channels.

Incorporated in 2013, Procurri has grown rapidly through the years and now has offices across three regional hubs – Asia Pacific, Americas and EMEA – with its global headquarters located in Singapore. Through its direct presence and global network of partners, Procurri’s business covers over 100 countries worldwide, providing a single touchpoint for its customers’ Lifecycle Services and Data Centre Equipment needs.
